

Dr. McGilva's Family Makes Donation of Prints to the Hospital

Dr. Arthur McGilva was a family physician in Sioux Center from 1946 – 1988. He saw the beginning of the Sioux Center Community Hospital. In those 42 years, he delivered nearly 2900 babies of this community. He passed away on June 19, 2008 at the age of 94.

The prints are on display in the Sioux Center Community Hospital & Health Center's family room. Two of the pictures were presented to Dr. McGilva at his retirement party. Dr. McGilva and his wife Marian purchased the remaining two pictures.
